October 2017 Letter from the President

I want to take a little time this newsletter to touch on some terminology that the more experienced branch members may be familiar with, but are not necessarily known by our newest members. So, here you have it:

A Guide to AAUW Terms and Acronyms

AAUW – American Association of University Women

AAUW, the national organization, is headquartered in Washington, DC. It is often just referred to as National or the Association. AAUW also charters state associations such as our own **AAUW-Wisconsin.** The state association provides leadership at the state level, support for the branches in the state, and sponsors events such as **Legislative Day** in Madison and the annual **State Convention**.

Branches in the state are organized into 5 geographic districts. Each year a **district** serves as the host for the State Convention. Additionally, districts hold 2 meetings a year with representatives of the branch leadership teams. These meetings allow branches to share ideas, discuss issues related to branch functioning, and offer input to state issues and the state leadership. AAUW-Appleton is a member of **District 5** along with Fond du Lac, Green Bay, Northwoods, Oshkosh, Sheboygan, Wausau, West Bend, and Wisconsin Rapids.

MSD – Member Services Database – the online database which contains your membership record. To access the MSD, you need your seven-digit membership number which you will find right after your name in the address section of Badger Briefs. You can also email national connect@aauw.org to request the information. Once you have your member number, you need to log in and register a password. You can then access your record and make any needed changes such as correcting spelling, changing addresses or phone numbers or email addresses.

MAL – Members at large, now known as National Members. These members have joined the national organization and may also be state members but are not members of a branch.

NCCWSL – (often pronounced nick-whistle) National Conference for College Women Student Leaders – a multi-day leadership conference with workshops and speakers held near Washington, DC.

LAF – Some of AAUW's national funding goes to provide support to plaintiffs pursuing sex discrimination cases through the courts. These legal advocacy efforts continue although no longer as a separate Legal Advocacy Fund. Many members still refer to it as LAF.

C/U members - Colleges and universities who have paid a membership fee to AAUW to be partnered institutions. As C/U members, students at these campuses may join as student affiliates of AAUW.

E-affiliates – free non-voting college student members at C/U partnered institutions who register online.

Changes Coming in the Apple Branch Newsletter

In the 2016-2017 year, the Board decided on switching to the use of an email service, MailChimp, to more easily deliver the newsletter along with other emailed communications such as program reminders, book sale updates, and other urgent notices that go to all members. In addition, committee chairs and interest group chairs will be able to use the service to send out information to their group members. Our MailChimp account has been activated, but new technology does have a learning curve. While the communications people are learning how to set up the service for our group needs, we want you to be aware that there will be some changes coming in the next few months. We will keep you informed of what to be on the lookout for and what you will need to do on your end.

Communications Update

For any communications issues such as not receiving the newsletter, name changes, email address changes, home address changes, phone number changes, contact Communications Chair, Cheryl Reissmann @ Cheryl-RonR@gmail.com or (920) 574-3301

Letter: Maps should be fair in Wisconsin

Letter to the editor Published 9:34 a.m. CT July 27, 2017

Former state Senate leaders speak out telling us "the maps are rigged," meaning many votes don't matter. Wisconsin has been gerrymandered into a one-party-take-all state.

Former Senate leaders Dale Schultz (R) and Tim Cullen (D) want to end gerrymandering. They support the lawsuit the U.S. Supreme Court is considering this fall. This exciting news means Wisconsin voters could get a fair shake and fair maps.

Gerrymandering has been done by Wisconsin and North Carolina Republicans and by Maryland and Illinois Democrats. Gerrymandered votes do not have equal value; the party drawing the lines wins the most elections.

Wisconsin is divided right down the middle politically. Wisconsinites voted for Barack Obama in 2012 and for Donald Trump in 2016. We have one U.S. Senator from each party. In state Assembly elections, the statewide vote has been close to 50-50, with Democrats securing a majority of the statewide vote in 2012, and Republicans winning majorities in 2014 and 2016.

Yet Wisconsin's legislative maps don't come close to reflecting that split. For the past three elections, Republicans have controlled 61 to 65 percent of the Assembly, but earned fewer votes than Democrats. Because in 2010 Republicans promptly — and secretly — drew district maps that ensured Republican control of the state legislature for a decade, no matter how the people voted. In 2012, they lost the popular vote but still retained a massive majority.

I hope that the high court curtails gerrymandered and rigged maps. Elections should be fair, ensuring voters choose their elected officials, not the other way around. Elections should reflect the will of the voters. In a recent Washington Post op-ed, Schultz and Cullen said: "when the maps are rigged, people are left behind."

Citizens should win, votes should count equally and legislative district maps should be fair in Wisconsin.

Penny Bernard Schaber,
Appleton

AAUW-Appleton Branch Public Policy

The Public Policy Priorities underscore AAUW's mission of advancing equity for women and girls through advocacy, education, philanthropy and research. A detailed outline of policy can be found on the AAUW website and in printed handouts. Public policy is adopted every year by an every-member vote every two years at the national convention and establishes the federal action issues on which AAUW members across the country focus their advocacy efforts and guides the work of the national staff. States and branches like AAUW-Appleton also use the Public Policy Priorities to guide our advocacy efforts on state and local issues.

The work of AAUW builds upon more than 130 years of responsible public participation. AAUW is committed to working to break through educational and economic barriers for women and girls.

Public policy principles for action include:

- High quality public education
- Economic, social and physical well-being for all persons
- Right to privacy and freedom from violence
- Efforts to improve racial, ethnic and gender justice
- National and international policies against human trafficking
- Civil and human rights of all immigrants including a fair and just path to legal status
- Campaign finance reform, open and fair elections, voter education
